CNCHelpFiles™ PDF-Version

A Universal CNC Help Library Generator & Processor for Creating Help Topics
CNC Operators can Request Help at their CNC for any Topic Created with CNCHelpFiles
"CNCHelpFiles" Part of an Integrated Family of ShopFloorManager™ EventAware™ Modules
Supports Windows 8™, Windows 7™ & Windows™ XP including Support for Terminal Server 2003/2005/2008

CNCHelpFiles™ is a Universal CNC Help Library Generator and Processor for any creating any Help Topic needed at any CNC. You can create "Generic Help Topics" without limits for use by any and all machine tools. I.E. OSHA requirements, Standard Procedures, etc. You can also create a "Default Help Topics" or "Specific Help Topics" such as Standard Operation Instructions, Safety Precautions, Fixture Installations, even CNC Maintenance Instructions, etc.

If you have text based Help Files or even Microsoft Word Documents that you deem useful for shop floor operators to access right from their CNCs just cut and paste using CNCHelpFiles™ and you can immediately create any Help Topic that meets your company's and or OSHA's requirements.

These Help Files are stored in ShopFloorManager's™ Database and can be accessed directly from the CNC by issuing simple Remote Commands to ShopFloorManager™ using ShopFloorManager's CNCFileRequester™ Commands.

CNCHelpFiles™ A Universal Help Dictionary Generator and Processor

Need to supply Help Files to your CNC Operators? Need to have OSHA requirements handy? CNC Operator needs to know how to use a Fixture, a Probe, a CNC Feature? If you can write or copy it you can create CNCHelpFiles!

OHSA Requirements	Setting Up Tooling	Off-Shift Phone Numbers
H E L P		
Fixture Instructions	Setting Up a Probe	CNC Operation

Standard

CNCHelpFiles™ Basics	**CNCHelpFiles™ For CNCs Basics Include:** • Generation of Generic Help Topics (Applies to all Machine Tools) • Generation of Default Help Topics (Default Topic at each Machine Tool) • Generation of Specific Help Topics (Applies to this Machine Tool Only) **Note:** CNCHelpFiles™ can be used as Process Sheets, Tooling Sheets, Instruction Sheets, etc. not just for basic Help Files. If you need Simple Text Base Information at a Machine Tool and want to included it as part of an "Operation" use CNCHelpFiles to create & Manage your Simple Text Based Files.
CNCHelpFiles™ **Generic Topics**	**Create Generic Topics for Any CNC(Examples)** • General Clean Up Standards (For All Machine Tools) • General OSHA Requirements (For All Machine Tools) • General OSHA Safety Procedures (For All Machine Tools) • General Contacts for Off-Shift (For All Machine Tools) **Note:** CNCHelpFiles™ allows the creation of Generic Help Files which are accessible by any Machine Tool attached to ShopDNC™. These Help Files can include any topic that a company chooses to create. Topics can include: General OSHA Safety; Cleanup; General Maintenance; Standard Company Procedures, etc.
CNCHelpFiles™ **Default Topics**	**Create a Default Topic for a Particular CNC(Examples)** • Default Clean Up Standards (For This Machine Tool) • Or Default OSHA Requirements (For This Machine Tool) • Or Default OSHA Safety Procedures (For This Machine Tool) • Or Default Contacts for Off-Shift (For This Machine Tool) **Note:** CNCHelpFiles™ allows the creation of a "Default Help Topic" for each CNC which can be requested by simply sending the Command "Help." CNCHelpFiles™ will send the Default Topic for this CNC!
CNCHelpFiles™ **Specific Topics**	**Create Specific Topics for Any CNC(Examples)** • Specific Clean Up Standards (For This Machine Tool Only) • Specific OSHA Requirements (For This Machine Tool Only) • Specific OSHA Safety Procedures (For This Machine Tool Only) • Specific Contacts for Off-Shift (For This Machine Tool Only) **Note:** CNCHelpFiles™ allows the creation of "Specific Help Topic" for a specific Machine Tool which is accessed by requesting any Help Topic using CNCFileRequester's Commands. If this Topic exists as a "Generic" and "Specific Help Topic" (for this Machine Tool) the Topic created specifically for this Machine Tool will be chosen over the "Generic Help Topic".
