

ShopFloorManager™ PDP Version

A Suite of Integrated Manufacturing Applications Supporting CNC Communications; Creation, Capturing & Real-Time Analysis, Reporting & Charting of Machine-Shop Events; ISO9000 Compliance Management of DNC Files, Documents, Travelers and Shop Resources; Allowing Companies to make Informed Decisions Affecting their Operation's Quality & Profitability Supports Windows 8™, Windows 7™ & Windows™ XP including Support for Terminal Server 2003/2008/2009

ShopFloorManager™ is an Enterprise Management System comprised of a Suite of Secure Integrated Manufacturing Applications built upon CAD/CAM Integrators' Standard and Optional Modules. These Modules are founded upon [EuroAWARE™](#) Technologies keeping Manufacturing Users and Applications in Sync.

EventAware Technologies continuously "Monitor" & "Instantly React" to Customer-Creatable-Settable Events as they occur throughout ShopFloorManager's Applications keeping Users, Charts, Reports, etc. in Sync. These Customer Based Critical Event Triggers Capture, Record and Analyze the Manufacturing Data in Real-Time so Users can make informed decisions regarding Real-Time & Accurate Information.

The Captured Manufacturing Data can then be Managed and Analyzed using a Host of ShopFloorManager™ Tools or using ShopFloorManager's™ Third-Party Tools™ connecting to Customers' Third-Party Applications. You can be anywhere in the World and access ShopFloorManager™ using your Smart Phone, Tablet or Laptop since ShopFloorManager supports Cloud.

ShopFloorManager™: Suite of Integrated Manufacturing Applications Supporting International LANGUAGES

International Features:

ShopFloorManager™ Provides your Company with Secure User Logins:

- Administrators Create User Names
- Administrators Create User Passwords
- Administrators Create User Group Organizational Timetables
- Administrators Select User Group Categories and Configure Category Rights
- Administrators Create any number of User
- Administrators Create User Groups with Rights that Control User's Access
- Administrators controls user ID Rights

ShopFloorManager™ Basics Include:

- System Configuration and Database Management
- Simple DNC
- DNC Management
- Document Control Management
- Event Management
- ISO Management
- International Language Management
- Version Control

ShopManager Management:

- Create & Manage any number of **Users** using Users & User Groups
 - Administrators
 - Operators
 - Supervisors
 - Shopmen
 - Misc.
- Organize and Manage all of your DNC Files
- Active, Restore & Purge all of your DNC Files
- Organize and Manage all of your Machine Tools
- Configure and Manage all of your Distributed CNC Communications Clients
- Configure Machine Users, Users, DNC Files & Machine Locality
- Use **ISO Approval** for Sign-Off and Approval for all of your DNC Files (Options available)
- Use **ShopReports™** for Complete Configuration, Up & Download Reports, Events, etc.
- Use **ShopCharts™** for Real-Time Charting of Up & Download/Options available
- Use **ShopReports™** for Manage Files, Projects, Progress, etc.
- Use **ShopDocs™** for securely creating Documents & Travelers
- Use **ShopManager™** for a Complete Integrated Manufacturing Management System
- Use **ShopMonitor™** for Event Capture & Management
- Use **ShopTools™** for Locality Capturing & Reporting of Events
- Use **ShopTools™** for Analyzing & Managing Traveler Data

ShopDNC Management:

- Create & Manage any number of **Users** using Users & User Groups
 - Administrators
 - Operators
 - Supervisors
 - Shopmen
 - Misc.
- Organize and Manage all of your DNC Files
- Active, Restore & Purge all of your File Histories
- Organize and Manage all of your Machine Tools
- Configure and Manage all of your Distributed CNC Communications Clients
- Configure Machine Users, Users, DNC Files & Machine Locality
- Use **ShopReports™** for Complete Configuration Reports
- Use **ShopCharts™** for Real-Time Charting of Up & Download
- Use **ShopTools™** for Analyzing & Managing Traveler Data
- Use **ShopManager™** for a Complete Manufacturing Management System

ShopDocs™ Document Control Applications Supports:

- Create & Manage any number of **Users** using Users & User Groups
 - Administrators
 - Office Personnel
 - Supervisors
 - Shopmen
 - Misc.
- Organize and Manage all of your Documents
- Active, Restore & Purge all of your Documents
- Organize and Manage all of your Packets
- Configure File Categories, Users, Documents & Machine Locality
- Use ISO Sign-Off and Approval for all of your Documents (Options available)
- Use ISO Sign-Off and Approval for all of your Packets (Options available)
- Use **ShopReports™** for Complete Configuration Reports (Options available)
- Use **ShopReports™** for General Reports (Options available)
- Use **ShopTools™** for Analyzing & Managing Project & Data
- Use **ShopManager™** for a Complete Manufacturing Management System
- Use **ShopMonitor™** for Analyzing & Managing Traveler Data

ShopMonitor™ Event Management:

- Create & Manage any number of **Events**
 - Customs List
 - State Name
 - State Lists
- Install Events in CNC Files
- Capture and Manage Events
- Active, Restore & Purge Machine Events
- Configure & Display Machine Events
- Configure & Display Machine Status Data
- Configure & Display Probe Data
- Configure & Display Machine Present "State"
- Configure Reports using Flexible Filters of All Events

ISO Management:

- Manage and Organize Sign-Off & Approval Status
- Manage and Organize all File, Document & Packet Charts
- Manage and Organize all File, Document & Packet Histories
- Create Search Key Fields for Managing and Sorting Files & Documents
- Use Document Control Engine for Searching and Retrieving Files & Documents
- Create Reports displaying Data to Chart of All Documents
- Create Reports displaying File & Document Histories
- Create Traveler Charts for Managing External Applications
- Configure File Management for ISO & Control Tool-Files

International Language Support:

- International Language™ International Language Module Supports:
- Create and Manage Different Languages
- Create and Manage Different Dialects
- Manage and modify Local Languages as needed
- Export Languages from specific tool
- Import Languages for specific tool

Standard and Optional Features:

ShopFloorManager™ Standard Features:

- EventAware Technologies - EuroAware™
- Virtualization Client Support - ShopFloorManager™
- Mail with DNC Support - [ShopFloorManager™](#)
- Standard Capture Support - [ShopFloorManager™](#)
- Archiving of Deleted Files & Documents - [ShopFloorManager™](#)
- Recover Help from the CNC - [ShopFloorManager™](#)
- Flexible Licensing - [ShopFloorManager™](#)
- Archiving of File & Document Histories - [ShopFloorManager™](#)
- Flexible Licensing - [ShopFloorManager™](#)
- Basic Report Generator - [ShopFloorManager™](#)
- Report Configuration - [ShopFloorManager™](#)
- Remote Report - [ShopFloorManager™](#)
- Basic Virtual File Categories - [ShopFloorManager™](#)
- Security - [ShopFloorManager™](#)
- User ID Separation Mode - [ShopFloorManager™](#)

Optional Features:

ShopFloorManager™ Feature Options:

- Sign-Off & Approval - [ISOApproval™](#)
- Managed Charts - [ShopCharts™](#)
- Full Virtual File Categories - [VirtualFileCategories™](#)
- International Language Support - [InternationalLanguage™](#)
- Manual Data Input - [ShopTools™](#)
- Machine Tool Event Monitoring - [ShopMonitor™](#)
- Traveler, Progress & Operations - [ShopTools™](#)
- Full Report Generator - [ShopReports™](#)
- Search Key Fields & Search Engine - [ShopTools™](#) & [DocumentControlEngine™](#)
- Third-Party Application Support - [ShopTools™](#)
