CAD/CAM Integration, Inc.

SuiteFactory™

Enterprise Class Solutions

Take control of all your computer files: office, engineering, manufacturing, legal . . .

- **Can be deployed on a single Windows™ 2000/XP PC, a Local Area, Wireless or an Enterprise Wide Network.**
- **It is fully end-user configurable. Configuration is simple and intuitive.**
- **Full set of utilities for database maintenance.**
- **Database driven for security and reliability. This is a basis for ISO 9000, 21CFR21 and DoD compliance.**
- **Rights to features controlled by administrator configured user logins.**
- **Remote administration – Administer the system from anywhere on your network.**

SuiteFactory Components

SuiteDocs™ **Document/Records Management**	SuiteDocs™ gives you the ability to import, retrieve, view, export and control and monitor the use and fate of your important documents. Launch 3rd party applications for editing those special documents/records while keeping control.
SuitePacs™ **Packets Creation and Management**	Enables you to associate documents for specific tasks, projects, manufacturing operations or retrieval of any related set of items. When a packet is created it becomes a controlled item whose use is governed and monitored the same way as for an individual document
SuiteDNC™ **Full-featured Distributed Numerical Control software**	For communicating with virtually any N/C or CNC controlled machine on the factory shop floor. Whether by RS-232/RS-422 serial I/O, networked, wireless or Behind the Tape Reader (BTR), SuiteDNC has all the requirements built-in. Queue and monitor DNC file downloads and uploads from anywhere on the network or right from your CNC controllers
Fault Tolerant BTR's	Our own fault tolerant Behind the Tape Reader interfaces for your older numerical controllers. Includes serial and parallel built-in upload capability. 512K revolving buffer support infinite tape lengths.

Common Features

User Login - Governs to what extent users can access any controlled item. Limit who can create, edit, delete, send or receive or even view a controlled item. User rights to configure who can use which SuiteFactory feature.

Approval and Sign-off. Set date/time when approval becomes effective or ends.   Sign-off lists –ordered lists of individuals can be created to pre-establish responsibility for signing off controlled items.

Search Criteria - In order to enhance controlled item retrieval, key words and other search criteria fields can be added to any DNC File, Document or Packet.

File cabinets – user configurable tree structure to any depth for storage and easy retrieval of your DNC files, Documents and Packets.

Hardware/Operating System Requirements

For best performance we recommend using a PC with an Intel Pentium III or later, 1GHz or faster processor, 512 Meg of RAM, Windows 2000 Pro with Service Pack 4 or later or window XP Pro with Service Pack 1 or 2.
